

CONCLUSION

The Bay Area Sports Organizing Committee (BASOC) is comprised of many people who believe in the spirit of Olympism and who want to share their ideals and the magnificence of the Olympic Games with the people of the San Francisco Bay Area, the United States and the world. They also want to share the beauty and other special qualities of this region with the athletes, officials, members of the Olympic Family, the media and spectators who will come here for the Olympic Games or who will participate in the Olympic Games interactively through technology.

The vast majority of BASOC are volunteer members of “Theme Teams,” based on their expertise in the various subjects discussed in this Bid Document for the 2012 Olympic Games. These teams include Olympians representing Olympic teams from 1936 to 2000, technology experts, transportation officials, financial advisers, athletes, sports officials and administrators, developers, lawyers, city officials, meteorologists, environmental experts, marketing specialists and individuals from many other walks of life. Together, the BASOC teams are committed not just to creating this Olympic bid, but also to delivering the best Olympic Games ever staged, in an ethically and fiscally responsible manner, and meeting or exceeding the expectations of all participants.

BASOC wishes to honor its teams and everyone who has contributed to the development and production of this bid. BASOC believes that the San Francisco Bay Area is the best place to host the 2012 Olympic Games, but that it will be the people who make the 2012 Olympic Games great.
